

Education is develop the country.

Education , as part of the social structure of society is viewed as a social institution. The content of education is difference between XXcentury with XXI centure.

Education and culture, the most closely related to the first phase of a system of educational institute with pragers and rituals: demanding return or cultural

production. First, the functions of education and social institutions of human society is regarded as a cultural revival. The main objective of the education system, training education and personal development. The aim is to measure the impact of training and education, technology methods and organization of the learning process, rather than the material forming the base score to see the achievements of an individual. There are specific types of educational system and its problems but these issues are determining the overall goal. In all countries, since ancient times, that characterize the period known as the education system, the development formed in accordance with the socio-historical conditions.

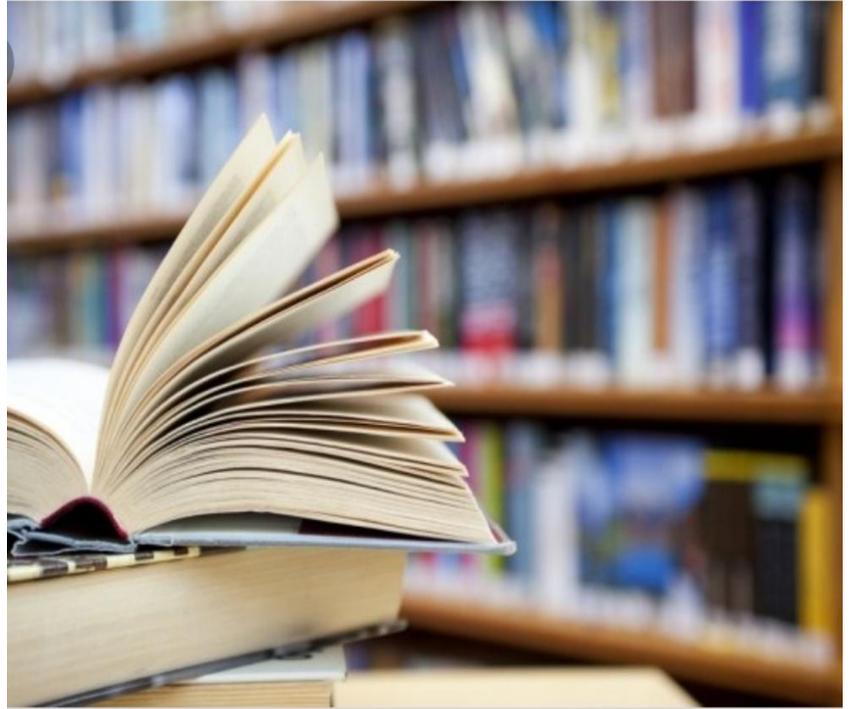

The right to education in Kyrgyzstan.

As in other countries in Kyrgyzstan Constitution says that every citizen has the right to education. Teaching children is the responsibility of the parents each child in their work, regardless of whether the school is eligible for enrollment.

To be carried out free of charge, and even school textbooks are provided free of charge. And those who want to have an opportunity to parents to pay their children to private schools can study in private school. A similar program of exclusive private schools make necessarily need to include a public school program. We study called secondary school, the right to education, which is not only the tasks. Therefore, every child should study at school. All depends on the ability of individual states to ensure access to vocational, special secondary and higher education. This is an opportunity for citizens to be on only by providing education, for all who want to study in the schools can not receive the training. That's why commercial educational institutions are allowed to open. The Ministry to Education to take license that meets the needs of schools, colleges, and many young people are training. Reducing poverty, educational equality, rights and empowerment, peaceful and inclusive society, they know to be the driving force economic growth.

The child is dependent on circumstances poverty, health, the opportunity is limited and constrained the development of the migration, early marriage, violence, education for children not attending school is very important.

We believe that teacher's play a role in enhancing the quality of education . Therefore, to improve the reputation of the profession of teachers training, teaching them to improve the quality of the system certificate and motivation are need. If you improve education, the right of violation will not be violated and all prisons cells will be closed and of course the country will develop further and further.

I believe that there will be no war

And our country will be the first in the world.
